Subject: STIP Comments - HQ Safety Projects

Mark,

As Gary recommended, I have gone through headquarter's safety projects in the draft 06-08 STIP now out for public review (comments due 12/31/05).

As we have discussed, I have the following comments:

1. Need ID 6027, HSIP, currently shows 10.8, 11.5, 12.0 in 06, 07, 08 respectively. As we agreed in our meeting with Jeff and Carol 11/9, it should show 21.189, 16, and 16.
2. Need ID 18843, Railroad-Highway Hazard Elimination, shows .95, .95, and .95. However, this money should be included in the Statewide HSIP above, where it will be used for a Northern Region RR Crossing Bypass lane project.

This would free up .95M each year.

3. Need ID 18327, School Zone Crossing Improvements, shows 1.1, 0.6, 0.6. It should show 2.982 in 06 - this is the number shown in STIP Amendment#8. The regions were promised this money last year and are working to spend it this year (see attached e-mail and spreadsheet).

Please pass these along to Planning.

- Kurt

Subject: School Zone Traffic Control Improvement Projects - Regional Funding Allocation

Hello,

The funding for this work was intended to be set up as three regional projects. However, it showed up in the STIP as a single statewide project (Need ID 18327) which makes it necessary to clarify how much funding is allocated to each region. The attached Excel spreadsheet, which is based on the funding requested by each region last year, provides that information.

Let me know if you have questions.

Thank you,

- Kurt Smith

Subject:

Hello,

I wanted to let you know how the funding works for the Statewide School Zone Crossing Improvements project (Need ID 18327) listed in STIP Amendment No. 8. The project evaluates, designs, and enhances school zone crossings to meet new requirements in MUTCD 2003 and the Alaska Traffic Manual Supplement. You'll remember us jointly developing the project earlier this year.

Funding for this project becomes out of the STIP, not HSIP, and becomes available as soon as FHWA approves STIP Amendment No. 8. I expect that to happen in early February. You may use HSIP FFY 05 legislative authority starting on the day FHWA that approves Amendment No. 8 thru June 30, 2005. You must use the project's legislative authority after that.

Regional funding has been allocated as follows:

Region:	NR	CR	SR
Need ID No:	18389	18390	18391
No. of Schools:	25	48	45
FFY 05			
Phase 2	70	164	100
Phase 3	15	40	10
Sub Total	85	204	110
FFY 06			
Phase 4	610	1,357	1,015
Total	695	1,561	1,125

Thank you and Happy New Year!

Alex Viteri, Jr., P.E.
